THE DAILY NEWS.

Newport:

FRIDAY, DECEMBER 3, 1847.

BY O. F. JACKSON, 97-THAMES ST.

—We hope the law requiring that persons about being married shall be published three successive weeks will be so amended, that one publication shall suffice, for there is no doubt but that this law drives a large number of young people into other States—Connecticut and New York—for the purpose of having this nice office performed. On Monday evening last, while stopping at the Steamboat Hotel in Stonington, we were invited into the parlor by Mr. Capron, the proprietor of the house, to see a couple married, who had just arrived in the cars, and who were to take the steamboat that evening for New York.

Mr. Capron showed us a list of those married at his house since the first of January last, and they numbered over fifty couple; a large proportion of which were from Rhode Island; and this number only comprised about *one third* of those who had resorted to Stonington from this State for the purpose of getting married, in order to avoid being published in the world three times. The law in Connecticut requires one publication, and in Stonington, in order to fulfil the law, the publication is taken into the bar-room and read.

The number of couple fleeing from this State into Connecticut and New York for the purpose of getting married, will average, at least, one hundred and fifty per year, and we may reasonably suppose that five-sixths of this number resort to other States on account of our law regulating such matters. We will suppose that the average price paid for performing the marriage ceremonies is *three dollars*,—and we hope none give less than this,—which makes three hundred and seventy-five dollars paid to those out of this State for marrying residents of Rhode Island. (We doubt not the sum amounts to twice as much as our estimate.) Besides this sum being taken from the pockets of our ministers, the example set by those fleeing from this State into others for the purpose of having the marriage ceremonies performed, is bad; and if a law, wholly uncalled for, can be so amended as to remedy this evil, it certainly is the duty of wise legislators so to amend it. Once publishing in the town where one or both of the parties resides, is sufficient, and would prevent so many “run-away matches.”

But if young people are determined to go to Stonington to have the “knot tied,” we would recommend them to the Steamboat Hotel as being a house where they will be well cared for; and we would not only recommend this class to go to the Steamboat Hotel, but all who may have occasion to tarry in Stonington. Both Mr. Capron and his assistant have a vigilant eye to the comfort of their guests.

—There were two arrivals at New Orleans on the 23d, bringing advices from Vera Cruz to the 16th, and Tampico to the 13th.

A Spanish topsail schooner has been captured by U. S. schooner Scorpion, for a breach of the port regulations. She was brought into Vera Cruz on the evening of the 8th, and detained as a prize. This is the same vessel that the Scorpion was sent in quest of by Com. Perry.

U. S. sloop-of-war Germantown was to sail from Vera Cruz on the 8th, upon an expedition to Campeachy. Capt. Rowley's company of Pennsylvania volunteers arrived at New Orleans from Pittsburg.

Steamer Edith, at New Orleans reports the total wreck of the U. S. steam propeller Buchanan (bound to Vera Cruz) on Lobo Island, during the night of the 8th inst. All on board saved.

Specie Exports.—The shipments of specie from New York to England and France, last week, exceeded three hundred thousand dollars in value. Exchange on Paris gold and silver was little requested for exports to Havre. Remittances of bills on Paris were made to London, as less expensive than sterling, at 10 a 10 3-4. The Acre was yesterday receiving gold from New York in considerable quantities, but the precise amount sent by that steamer can only be known after her clearance this day.—*Boston Post of Wednesday.*

SYMPATHY FOR ITALY.—The meeting of American citizens to sympathise with Pope Pius the Ninth, in his efforts to establish civil and religious liberty throughout the papal dominions, took place at the Tabernacle in New York on Monday evening. Mayor Brady presided, with 32 vice presidents and 12 secretaries. Letters from Edward Everett, Van Buren, Buchanan, Greeley presented an address to the Pope, which was unanimously adopted.—Resolutions were offered by H. F. Butler, T. Sedgwick, and others, and Professor Foresti spoke in Italian. The meeting was enthusiastic.

STEAMER TALISMAN.—We published last week an account of the sinking of the steamboat Talisman, by collision with the steamer Tempest, by which at least fifty lives were lost. The only additional information is in the following paragraph from the Louisville Journal:

From the clerk of the Anglo Saxon we learn that this boat rounded to at the wreck, and found two deck-passengers on a wood-boat alongside of it, who said that of ninety-six deck passengers only ten were saved, and one cabin passenger, the engineer and two deck-hands were drowned.

CHEMICAL ANALYSIS OF TEA.—In the memoir of the London chemical society there is an interesting paper by Warrington, on the analysis of tea, in which he states that he has not only removed the whole of the coloring matter, or glazing, from green tea, but he has been able to analyze the matter removed, and prove it by chemical evidence, to consist of Prussian blue and gypsum principally. So that in fact the drinkers of green tea, as it comes to the English market, indulge in a beverage of Chinese paint, and might imitate the mixture by dissolving Prussian blue and plaster of Paris in hot water. The Chinese do not drink this painted tea; they only sell it.

—Adam Littleton says that “every man is made of three eggs, and has three souls in him,” and that this “appears in the reflection of conscience upon actions of a dubious nature; whilst one soul accuses, another soul defends, and the third soul passes judgement upon what has been so done by the man.”

TOBACCO.—In Ohio, the quantity raised this season is supposed to be not over 8000 or 8000 hds, against 20,000 hds. last year. A good deal of last year's crop will be kept at home, on account of the break in the Pennsylvania canal, and will be sent to market the coming summer with the new.

TREMENDOUS EXCITEMENT.—Our Town was thrown into a great state of excitement yesterday about noon, by the appearance in our streets of a person, dressed after the manner of a Mexican Rancheiro. Some supposed that an expedition had been fitted out by the government of Mexico, against the United States, and that they had landed upon our coast and were about to direct their efforts against our town. But their fears were relieved by seeing him quietly enter a dwelling, and disappear without making any warlike demonstrations.

SMART IF TRUE.—The Tribune has the following poser:

“A poor fellow was yesterday brought before one of the police justices, charged with the crime of being intoxicated. The justice interrogated him:—“Well, what do you get drunk and come here in this condition for?” “See here,” was the reply, uttered with the hiccup and accentuation of drunken men, “What do you give license for?”

FOR THE LADIES.—We find the following scrap, taken, it is said, from Henry's Commentary, in the Western Continent:

“Woman was made of a rib out of the side of Adam; not made out of his head to top him—nor out of his feet to be trampled upon by him—but out of his side to be equal with him—under his arm to be protected, and near his heart to be beloved.”

Specie Exports.—The youth of seventeen years, of prepossessing appearance, has been sentenced to be hanged to-day, for the murder of Mr. Butcher, in Walton county, Florida. They were both intoxicated, and the killing was done in a quarrel.

—Snow fell to the depth of about six inches at Buffalo on Saturday.

—Hon. Henry Clay has arrived at Louis-

MASONIC.—Ex-Gov. Robert P. Donlon, of Maine, was, at Masonic Hall, on Tuesday evening, installed as grand high priest of the grand royal arch chapter of the United States. There was a full attendance, and the imposing ceremonies were performed in presence of royal arch chapters, temples and other orders. Rev. Paul Dean, on presenting to the new high priest his appropriate insignia, addressed the audience in praise of the institution of free masonry.—*Boston Post.*

—We learn from the St. Augustine Herald, of the 18th inst., that on Saturday, the 13th, the claim of Capt. Donnell and others for salvage upon the goods and machinery saved from the steamer Narragansett, wrecked near Mosquito Inlet, was decided in the U. S. district court. The court awarded 30 per cent. The evidence acquitted the captain of all blame.

—There was a foot of snow in Eastport on Monday.

—Virtue has no outward pomp; her very countenance is so full of majesty that the proudest pay her respect, and the profanest are awed by her presence.

The great and only Successful Remedy for the cure of Consumption.

Dr. E. W. Vondersmith's INDIAN COUGH BALM and LUNG BALSAM.

READ.

Disorder of the Lungs and Throat cured.

White Plains, April 29, 1847.

This is to certify that I have been afflicted for five years with a cough, pain in the chest, night sweats, difficulty in breathing, etc., and I also expectorated a large quantity of frothy matter and blood, from which I was reduced to a perfect skeleton, my throat was very much ulcerated, I had linear caustic applied to my throat twice a week, but received no benefit; I have used one hundred different kinds of Patent Medicines, recommended by my friends, but all to no purpose. A friend of mine, Mr. Willett, whose lungs had been affected for two years past, was cured by Dr. Vondersmith's Medicine. He insisted upon my trying Dr. V., and I did so. After I had used his medicine 15 days, I expectorated large quantities of yellow fetid matter, my chest expanded, and my difficulty in breathing subsided. I persevered with his medicine, and the result has been, I am perfectly cured of all my sickness. I recommend every competitor to try Dr. V.'s medicine, I am confident it will cure you. Your sincere friend,

EDWARD C. THOMPSON.

Sworn before me this 21st day of April, 1847.

Inflammation of the Lungs.

New York, June 19, 1847.

Dr. Vondersmith—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I had a severe cold, which settled on my lungs. I was unable to attend to my business during the day. I would have dreadful coughing fits, that I thought was impossible for me to survive unless I could get relief. The excessive night-sweats had reduced my whole body to a skeleton. I expectorated white frothy mucus, in fact, should I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr. Vondersmith's Indian Cough Balm and Lung Balsam. I consented; when I had used it about one week, my cough decreased considerably, which gave me great hopes. I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present. I sincerely believe had I not made use of Dr. Vondersmith's invaluable medicine, that I would be moulder in the silent grave. Therefore I believe that I am doing nothing but what is just, in stating the above facts, so that you may show it to all the afflicted who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted who call upon me. Your grateful patient and friend,

JAMES R. HENDERSON,

Consumption.

Staten Island, June 10, 1847.

Dear Sir—I take great pleasure in giving you my certificate, last December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow mucus. Some days I raised a half-pint of mucus, streaked with blood. I have been under the treatment of a dozen physicians. I was recommended by Dr. Mitchell of Philadelphia, to use a Bathing tub, I purchased one, I only made use of it one week, it was the cause of bringing on a hemorrhage of the lungs, which reduced me so much that I was unable to sit up, my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vondersmith's Medicine recommended very strongly by a patient whom he had cured. I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles, I took according to the directions, and it cured me perfectly sound.

Yours, &c., ROBERT WILLSEY.

Dr. B. HIBBARD'S Vegetable and Anti-Bilious MARYLILL PILLS are not found to be the most convenient, the best physic you ever tried, and fully equal to any recommendation of them. You do not find that one of these pills does more good than from four to six of any other kind, every agent stands ready to receive the empty boxes and refund the money.

These Pills are recommended as being without an equal in all Bilious attacks, affections of the Liver, the Lungs, Stomach, or Bowels, caused by taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and reopen the closed pores of the body, thereby letting out the insensible perspiration through its reconstituted channels, and relieving at once the internal organs. Also in old chronic affections, as Dyspepsia, Sick Headache, Rheumatism, &c.—Mind the Directions, which go with each box.

Every agent has circulars of these Pills to give away.

Half a Dose is the usual dose, though some require three Pill, or even more. Children of one year and over, one-quarter of a pill, of 7 years and over, half a pill. These Pill are purely VEGETABLE, and may be taken under all circumstances, without regard to drink or diet.

The American Improved Hygienic Vegetable Medicine.

SAFEST, CHEAP AND EFFECTIVE.

This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties.—During the last twenty years it has worked its way into extensive use, *mainly upon its own merits*, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—have occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is used. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

Boggs Hyperion Fluid; or Vegetable Hair Composition.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture, never before attained, yet free of animal grease or essential oils. It clears the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the harshest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxuriant state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation of a good head of hair.

Manufactured and for sale by WM. BOGLE, 228 Washington, corner of Summer street, Boston. Sold in Newport by R. J. TAYLOR.

A Treatise on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff, and preserving the natural beauty and softness of the hair, by WM. BOGLE, accompanies each bottle.

M. R. ABRAHAM VANDERBEEK, of 98 Avenue D, New York, certifies that his head was entirely bald on the top, and by the use of two 3s. bottles of Jones' Coral Hair Restorative, he has a good crop of hair, and will soon have it long and thick.

Mr. William Jackson, of 80 Liberty street, Pittsburgh, Pa., certifies: On the 3d of February, 1847, that Mr. Thomas Jackson's head, on the top, was entirely bald for 15 years, and that by using two 3s. bottles of Jones' Coral Hair Restorative, the hair is growing fast and thick, and will soon be entirely restored.

Gray Heads! Read—I hereby certify that my hair was turning gray, and that since I have used Jones' Coral Hair Restorative, it has entirely ceased falling—is growing fast, and has a fine dark look. Before I used Jones' Coral Hair Restorative, I combed out handfuls of hair daily.

W. M. TOMPKINS, 92 King-st., N. Y.

Mr. Power, a grocer of Fulton-st., had his hair choked up with dandruff, and Jones' Hair Restorative entirely cured it.

Do you want to dress, beautify, and make your hair soft and fine? Read—I, Henry E. Cullen, late barber on board the steamboat South America, do certify that Jones' Coral Hair Restorative is the best article I ever used for dressing, softening, cleansing and keeping the hair a long time in order; all my customers prefered it to anything else.

Sold only in New York at 82 Chatham street; and in Newport by

GENUINE BEAR'S OIL

Highly Perfumed.

—Perhaps our ladies and fashionables are not aware that three-quarters of the "Bear's oil," (so called) with which they anoint their locks, wondering that it does them so little good, is nothing in the world but hog's lard, so highly scented as to escape detection, save on close examination. This, however, is simply the fact, and one that ought to be known.

The only safe way is to purchase your Bear's Oil of HENRY JOHNSON, who gets it direct from Canada and the North Western Territory, and who never sells an ounce until he knows it to be genuine. The real Bear's Oil is a wonderful beautifier and strengthener of the hair, and should be used by every one desirous of beautiful locks.

Purified and perfumed for toilet purposes, by Henry Johnson, Chemist and Druggist, 273 Broadway, corner Chambers st. in the granite building. Sold in Newport by R. R. HAZARD, near the Court House.

CLICKER'S SUGAR-COATED PILLS.

The grand purgative for the cure of headache, piles, rheumatism, dyspepsia, scurvy, small pox, jaundice, rising in the throat, fevers of all kinds, aethcarium, coughs, consumption, erysipelas, deafness, colds, gout, gravel, pains in the back, palpitation of the heart, inward weakness, dropsy, asthma, measles, salt rheum, worms, quinsy, whooping cough, fits, liver complaint, itchings of the skin, nervous complaints, and a variety of other diseases, arising from impurities of the blood, and obstructions in the organs of digestion.

CAUTION.—Beware of an imitation article called Improved Sugar-Coated Pills, purporting to be patented, as both the pills and pretended patent are forgeries, got up by a miserable quack in the city of New York, who for the last four or five years has made his living by counterfeiting popular medicines.

Remember, Dr. C. V. Clicker is the inventor of sugar-coated pills, and that nothing of the sort was ever heard of until he introduced them in June 1843. Persons should therefore always ask for Clicker's sugar-coated pills, and take no others, or they will become the victims of a fraud. 25 cents per box, or five boxes for \$1.

Sold in Newport by R. J. TAYLOR, and by one agent in every town in New England.

DOCT. INGOLDSBY'S PILLES SPECIFIC. The Daily National Whig

IS published in the City of Washington, every day, at 3 o'clock P. M., Sundays excepted, and is served to subscribers in the city, at the Navy Yard, in Georgetown, in Alexandria, and in Baltimore, the same evening at six and a quarter cents a week, payable to the sole agent of the Whig, G. L. Gilbreath, Esq., or his order. It is also mailed to any part of the United States for \$4.00 per annum, or \$32.00 six months, payable in advance. Advertisements of ten lines or less, inserted one time for 50 cents, two times for 75 cents, three times for \$1, one week for \$1.75, two weeks for \$2.75, one month for \$4, two months for \$7, three months for \$10, six months for \$16, one year for \$30, always payable in advance.

The "National Whig" is the only one that I am aware of that is published in the United States, and is the only one that is almost entirely a weekly paper. It speaks the sentiments of the Whig party of the Union on every question of public policy. It advocates the election to the Presidency of Zachary Taylor, subject to the decision of the Whig National Convention. It makes war to the Whig upon all the measures and acts of the Administration deemed to be adverse to the interests of the country, and exposes, without fear or favor, the corruptions of the party in power. Its columns are open to every man in the country, for the discussion of political, or any other questions.

In addition to politics, a large space in the National Whig will be devoted to publications upon Agriculture, Mechanics, and other useful Arts, Science in general, Law, Medicine, Statistics, &c.—Choice specimens of American and Foreign Literature will also be given, including Reviews, &c.—A
